sportsequip.co.uk have an agreement in place with Bernhard's Sport Surfaces and are now pleased to be able to offer the Mondo 'Sportflex Super X' track surface for schools and colleges long jump and triple jump runways.

Mondo prefabricated athletics surfaces are fully approved by all major athletics bodies and is the surface used for track events for most Olympic, Commonwealth Games and all World Championships.

In addition we are also able to offer texture sprayed porous and 'sandwich' systems most commonly used on most UK local authority facilities, but the advantages of the prefabricated surfaces are the simplicity of installation, hard wearing characteristics and low maintenance.

With this range of surfaces and systems **sportsequip.co.uk** are also able to resurface, refurbish, renovate and upgrade existing runways and landing pits to 'as new'.

We are also able to construct runways for Pole Vault, Javelin, and High Jump as well as install circles for Shot, Discus, or Hammer

Please refer to the standard construction specifications for runways and pits available on our web site **www.sportsequip.co.uk**
