

# County Weave Construction Specification

## Construction Specification: Full County Weave Wicket - 30m x 2.7m

- Mark out the area of excavation, size 29m x 2.44m.
- Excavate base to a depth of 50mm and consolidate the base of the excavation with a vibrating roller.
- Lay Terram 1000 geotextile or equivalent to the base of the excavation.
- Import and lay 50mm of compacted hard porous material such as Olliset, Redgra or equivalent.
- Locate position of stumps, and install clay area 400mm x 100mm, flush with the level of the hard porous base.
- Roll out the under pad over the baseworks and pin using 100mm galvanised nails at 500mm centres into the sub base.
- Cut away under pad over stump areas.
- Mark out the area of the wicket centrally orientated over the baseworks, size 30m x 2.74m, nominal.
- Cut very short the grass over the above area to allow the carpet to sit flush with existing turf.
- Roll out the carpet over the prepared area, and pin to the ground at 150mm centres.
- Adjust levels of turf adjacent to the pitch area as necessary.
- Mark creases using emulsion paint.
- If conventional stumps are being used they can be driven through the carpet into the stump boxes.

### **Please note that we do not allow for the following:**

- Any adjustments to the levels of the turf adjacent to the pitch area which may be necessary as a result of work being carried out in accordance with the above specification.

The reinstatement of any other grass areas affected by the works.
