

County Weave Introduction

County Weave System Cross Section

The County Weave system is a traditional non-turf pitch using a 50mm compacted hard porous base. This is laid onto an optional geotextile layer and when levelled and compacted provides play similar to a good natural turf pitch. sportsequip.co.uk fit as standard a stiff load bearing base pad over the whole base to produce an even bounce and reduced base maintenance.

The pitch is surfaced with a professional quality Wilton woven playing surface offering excellent playing characteristics and long life.

The system offers excellent levels of play and high quality materials at a competitive price. It is suitable for schools and cricket clubs as a match or practice surface.

Synthetic Component Specifications

County Weave Carpet Ref CR501

Wilton woven, 100% u.v. stabilised fibrillated polypropylene

Width - 2.74m

Total thickness - 9.00mm

Total weight - 1.45kg/m²

Cricket Shockpad Ref CR510

Flat resin bonded Needle punch, 100% UVS polypropylene

Width - 2.44m

Total thickness - 6.00mm

Total weight - 1.04kg/m²
