Machines should not be sold on the basis of these specifications alone. Other considerations such as budget, application, environment, manoeuvrability, portability, size, handling, type and positioning of controls, maintenance, availability and appearance are also important considerations.

Legend M = Mains Operated B = Rechargeable Battery Operation TS = Top spin US = Under spin SS = Side spin
 H = Horizontal (side to side) V = Vertical (up and down) '2'L = Two-line oscillation (alternates between the number of lines with a single shot)
 P = Player Mode (selects pre-set directions in pseudo-random manner only, does not offer depth variation as stated by manufacturer)

Battery Capacity relates to 'Continuous Hours Usage' as opposed to 'Court Usage' i.e. period to shutdown when all functions on at full speed
 Ball Speed measurements are undertaken with state-of-the-art radar equipment. The rating is an average of several deliveries.

The Elite 4 Grand Slam 'Drills Function' offers 3 pre set drills that replicate the styles of 3 different types of play - 'Grinder', 'Power Baseline' or 'All Courter'. The Elite 4's 15 function remote control allows the receiving player to stop/start the ball feed, alter spin/speed/interval and choose between the oscillating functions.
