

Lobster Mains Tennis Ball Machines from sportsequip.co.uk

(Pneumatic air propulsion)

Lobster Tournament 401

The versatile Lobster Tournament is Britain's most popular ball machine. Its unique built-in dual oscillator is designed to create a random pattern of shots with variations in direction and depth. Add the optional TE189 Spin Adapter for topspin, underspin or sidespin and the possibilities are endless. Imagine a six minute workout against topspin shots all over the court up to 60 mph. A true test for the serious tennis player (but can be tamed to suit all standards). Weight 14.5 kgs.

Other accessories are detailed below.

TE188 Lobster 401

Lobster 301

Similar in size to the Lobster Tournament 401 this ball machine has a built-in horizontal (side to side) random oscillator. It has become a favourite of coaches, clubs as well as schools and home court owners. Powered by a pneumatic system and holding 150 balls, the Lobster 301 is like an opponent who sends everything back with unerring accuracy. Add TE189 Spin Adapter and TE191 Remote Control for a really great workout. Weight 14 kgs.

Other accessories are detailed below.

TE187 Lobster 301

Lobster Mains Machine Accessories

TE189 **Spin adapter** for all machines.

A most popular accessory for all Lobster mains ball machines. Creates topspin, underspin and sidespin on the ball.

Lobster Storage Covers

Heavy duty lined vinyl covers. Protects machines from dust and moisture when in storage.

TE199 Rain-proof cover for Lobster Ball Bucket

TE190 Rain-proof cover for Lobster Tournament 401 and 301

TE191 **Pneumatic Remote control switch and airline**

Foot operated bulb connected by a long plastic airline. A one function device that turns the machine on and off.

TE192 **50m Mains Extension Lead**

Fitted with 16A heavy duty splash-proof socket. All machines only come with a standard short lead, and require a separate mains lead.
