Re-Taping a Shale Tennis Court with Tenex Tapes

Full instructions are provided with the set of tapes.

The 149m rolls of Tenex Tapes (TE342) need to be accurately cut as there is very little waste.

- 4 x 23.77m (78') long Side Lines
- 2 x 10.97m (36') long Base Lines
- 2 x 8.23m (27') long Service Lines
- 1 x 12.80m (42') long Centre Line
- Width 50mm (2")

All tapes are ready punched 3mm diameter for fixing down with TE341 Aluminium Nails (or similar). Please note most alternative galvanised nails that you may source yourselves are wider than 3mm and consequently may split the tapes.

Materials check list:

- 1 x set of plasting marking tapes (TE340)
- 5kg aluminium nails (TE341)

Tools check list:

- Hammer
- Stanley Knife
- Loot or Stiff Broom
