TENNIS. OVERALL COURT DIMENSIONS

The Rules of Tennis, as published by the ITF, denote the space required, outside of the court markings, for International and other official championships only. These dimensions are shown in column 1. Below. The other dimensions shown are recommendations of the LTA based on experience at tournament and club level.

Due to constraints, such as site restrictions, these dimensions may not be achievable and recreational tennis is possible on overall court dimensions of 33.53m length and 16.45m width. Overall playing areas less than this will seriously restrict play.
