**sportsequip.co.uk** offer a range of cricket cages including kee klamp Parks Cricket Cages, Wheelaway Cricket Cages and traditional timber pole and guy rope systems.

We offer these on a supply only or supply and installation basis in conjunction with our range of synthetic cricket surface systems County Weave and Practice Turf.

**Parks Cricket Cages** are a heavy duty steel cage system complete with ground sockets and full length side netting for sides with recommended optional roof netting. **Parks Cricket Cages** are fully modular and bays are available from 1 batting lane to a typical maximum of 6 batting lanes and start at 3.66m wide up to 21.96m in width.

A standard frame kit comprises: heavy duty 33.7mm o.d. x 3.2mm galvanised tubular steel c/w kee clamp joints and heavy duty 460mm deep ground sockets; a heavier duty specification than those offered by many competitors. We also supply traditional knotted or knotless cricket netting, depending on customers preferences.

Through our extensive range of trade contacts we are also able to source components to refurbish, upgrade or replace existing old cage systems.

Please refer to the range of supporting data sheets and prices available on our web site **www.sportsequip.co.uk**
